1996 Catalog

Ontario Knife Company

Ontario Knife is located in Franklinville, N.Y., about one hour south of Buffalo, N.Y. All products are made at, and shipped from, the Franklinville factory.

In addition to the sporting/outdoor knives covered in this catalog, Ontario makes a number of other product lines including Old Hickory Kitchen Cutlery, Industrial and Agricultural Products, and Sci-Med Scientific Tools and Instruments. Also, Ontario Knife is a major supplier of private label blades and knives.

Ontario Knife is a diverse manufacturer that can supply a very large selection of cutting implements. Please call our office for more information.

Limited Lifetime Warranty

All knives are guaranteed to the consumer who made the original purchase, against defects in material or workmanship. Damage due to abuse or misuse is not covered and normal wear is not covered. Defective products will be repaired, replaced or substituted with comparable items at similar cost.

If you believe you have a product with a defect, you may return it to your dealer, return it to the factory or call customer service for instructions.

U.S. MILITARY KNIVES

PRESENTATION GRADE

Working military knives in presentation grade, "dress uniforms" make beautiful gifts, handsome additions to collections and excellent, general purpose field knives. Knife features include brush finished, 440A stainless steel blades, stacked leather and fiber handles, and brass guards and buttcaps. Each knife includes a tanned non-corrosive leather sheath and comes in an attractive gift box.

U.S.M.C. PARACHUTIST KNIFE

The original Parachutist Knife, pictured below, was used by trainees at Marine jump schools during WW II to cut tangled parachutes and equipment. The knife was issued for jump school only and was to be turned in when training was complete. Original Parachutist Knives are rare and quite valuable.

Supply
Limited

P1 - U.S.M.C. PARACHUTIST KNIFE

Blade length 4-1/8", overall length 8-1/2"

ORIGINAL U.S.M.C. PARACHUTIST KNIFE

Courtesy Mr. Larry Thomas, American Military Edged Weaponry Museum
Intercourse, PA

U.S.N. MARK I UTILITY KNIFE

Navy Mark I's were issued to sailors for general utility use aboard ship. Many varieties of this popular World War II knife were manufactured; there was wide variation in blade grinds, handle materials and shapes. The new, presentation grade Mark I has a slightly shorter blade than the original version, 4-3/4" vs. 5-1/8"

P2 - U.S.N. MARK I UTILITY KNIFE

Blade length 4-3/4", overall length 9-1/4"

Courtesy Mr. Larry Thomas, American Military Edged Weaponry Museum
Intercourse, PA

U.S. ARMY QUARTERMASTER KNIFE

The Army Quartermaster Knife was not just a cutting knife. The thick, wide blade was used as a pry bar for opening shipping crates, and the blunt end was used as a hammer. These knives were also "traded" to WWII infantry troops and used in combat. The civilian version was marketed under the more adventurous name, Commando Knife.

P3 - U.S. ARMY QUARTERMASTER KNIFE

Blade length 6", overall length 10-3/4"

7" coated carbon steel blade. Weather proofed leather handle. Sewn and riveted leather sheath. Overall length 12"

Also available in Sawback Version
Teeth are 1/8" deep and 2-5/8" long

Ontario County Hunting Knives

The Ontario Knife Company was founded in Naples, N.Y. in 1889. Naples is located in upstate New York, in Ontario County, southeast of Rochester. Ontario Knife is named after Ontario County.

The beautiful Finger Lakes Region in upstate New York includes Ontario County. Each knife is named after a Finger Lake.

The Ontario County Hunting Knives are made with the same skill and care that was common in the late 19th Century, when the company was founded. These knives continue a point of view that a knife should be admired not only for its cutting ability but for its appearance, and a tradition that fine knives be passed on for others to use and admire.

Each knife features a brush finished, 440A stainless steel blade, a stacked leather and fiber handle, a brass guard, and a stag cap. Each knife comes with a dark, tanned leather sheath and is packed in an attractive gift box. All knives and sheaths are made in the U.S.A.

OC1 - Seneca

Blade length 6" overall length 10-1/2"

OC2 - Keuka

Blade length 4-1/2" overall length 9"

OC3 - Cayuga

Blade length 4-1/2" overall length 9"

Queen Cutlery Company

Queen Cutlery is located in Titusville, Pennsylvania, about two hours Northeast of Pittsburgh, Pa. All Queen products are made at the Titusville factory. Most other functions – sales, customer service, accounting, etc. – are located at the Ontario Knife factory in Franklinville, N.Y. – about two hours away.

Queen's roots go back to the Schatt & Morgan Cutlery Company, which was founded in Gowanda, N.Y. in 1890 and moved to Titusville in 1895. Queen is still housed in the original Schatt and Morgan factory and many of the delicate hand processes and operations employed by Schatt and Morgan are still being used by Queen. Skilled craftsmen are essential to build a "factory knife" by hand and, while this doesn't lead to mass production or extremely low prices, the results are beautiful, functional knives. The awards listed below are testaments to the skill of the Queen craftsmen.

Blade Magazine - Manufacturer's Awards - Voting by manufacturers

- 1990 - Best Buy of the Year (83A Jumbo)
- 1991 - Excellence in Manufacturing Quality - Entire product line
- 1994 - Publisher's Award - Special Recognition - Schatt & Morgan and Robeson

American Blade Collectors Association (ABCA - now IBCA)

Club Knives - Voting by life members

- 1991 - Whittler - burnt stag handles
- 1992 - Schatt & Morgan Reverse Gunstock - burnt stag handles
- 1993 - Schatt & Morgan Swing Guard Lock - ebony handles
- 1994 - Schatt & Morgan Jumbo Lock - burnt stag handles
- 1995 - Robeson Moose - burnt stag handles

National Knife Collectors Association (NKCA)

Club Knives - Voting by NKCA Board and Youth Knife Committee

- 1992 - Club Knife with Sargent Co. - Trapper - brown bone handles
- 1994 - NKCA Youth Knife - Senator - Rogers bone
- 1995 - NKCA Youth Knife - Slim line Trapper - brown bone handles
- 1996 - NKCA Youth Knife - Schatt & Morgan Sleeve Board - brown bone handles

**If you agree with the most knowledgeable
knife people in the world,
you'll buy Queen knives!**

SCHATT & MORGAN POCKETKNIVES

The Schatt & Morgan Cutlery Company was founded in 1890. The company produced very high quality pocketknives until it was purchased by the Queen City Cutlery Company in 1932. Queen City changed its name to the Queen Cutlery Company in 1947 and started making Queen Steel knives at about the same time. Queen Cutlery is still housed in the original Schatt & Morgan factory in Titusville, Pa.

Schatt & Morgan Series I pocketknives were introduced in 1991, with Series II, III, IV and V following through 1995. At the beginning of the year, the new series is started and the old series discontinued. The make-up of each series has been:

- Series I - 1991 - Brown jugged bone, six knives, introductory year.
- Series II - 1992 - Deep red jugged bone, eight knives, two new patterns.
- Series III - 1993 - Winterbottom bone, six knives, two new, one revised pattern.
- Series IV - 1994 - Corncob bone, six knives, two new, two revised patterns.
- Series V - 1995 - Anniversary Series - burnt stag and pearl, five knives, one new pattern.

Given the time and skill necessary to produce these beautiful, premium quality knives, production has been, and will be, limited to less than 1,000 pieces per year. The knives typically sell out in the summer.

The Schatt & Morgan reproductions feature:

- Queen Steel blades, with traditional grinds.
- Nickel silver liners on the pearl handled knives, brass liners on all other patterns.
- Year of manufacture tang stamped. All secondary blades tang stamped.
- Decorated nickel silver bolsters.
- All shields pinned to handles.
- Attractive Schatt & Morgan gift boxes.

SCHATT & MORGAN POCKETKNIFE SERIES VI

EMERALD GREEN BONE - PRESENTATION GRADE PEARL

Dark emerald green, jiggled bone, presentation grade pearl, three new patterns and one revised pattern highlight Schatt & Morgan Series VI. The Wharncliff Whittler includes nickel silver liners and a decorative blade etch. The Wharncliff Whittler, English Jack, and Congress Whittler are new patterns. The Canoe has been modified to two blades, with slanted bolsters.

ROBESON

Shun Edge
TRADE MARK

Strawberry Bone

The Robeson Cutlery Company was founded in 1879, by Millard Robeson. The company continued to manufacture knives until 1965 and continued to sell knives until 1971, when the cutlery business was purchased by The Ontario Knife Company, the sister company of Queen Cutlery. Robeson produced many handsome knives during its long history, but the company was best known for beautiful, red handled knives made with Strawberry Bone.

Painted Crown Red

A delicate, time consuming process is followed to develop the deep, "royal" red handles on these beautiful knives. Each handle slab is shaped from a sheet of bright red acrylic. Then the back of each handle is painted a deep blue. The combination of the red acrylic and blue paint results in the royal, rich color of Painted Crown Red. Each knife includes a new, black painted shield and Queen Steel blades.
